

Terms and conditions

1. Complete and submit this form at Famona fire station within 24hours on receipt of this copy.
2. Fire protection equipment service personnel are required to be in possession of valid competency certificates obtained from the local fire authority before any commencement of such work.
3. It is the mandatory obligation for the concerned fire company to ensure that all service personnel possess such qualification.
4. It is a fire safety violation to engage in the work of servicing or installation of such equipment without providing evidence of acceptable training and experience of your personnel to the local fire authority. Refer to model building by-laws 1977, chapter 11, section 49, item 4 or Bulawayo Brigade By-Laws clause 18.
5. If you do not meet the above stated requirements as stipulated in the By-Laws this may lead to the closure of your company if you fail to comply within the stipulated time.
6. The fire service as the regulating authority urges your company to comply with the fire safety regulations within 14 days from the date of this notification.
7. For any further information contact Fire Prevention Officers on the following numbers **77331-4**
