

CITY OF BULAWAYO

RE: WATER SHEDDING PROGRAMME

The city's water supply situation is now critical with Upper Ncema Dam already decommissioned and Inyankuni and Umzingwane to follow in the next few weeks.

DAMS	CAPACITY (m ³)	VOLUME (Million m ³)	% Full
Insiza Mayfair	173 491 000	119 329 897	68.78
Inyankuni	80 781 000	4 878 650	6.00
Lower Ncema	18 237 700	9 325 450	51.13
Umzingwane	44 663 500	1 482 500	3.32
Upper Ncema	45 458 500	1 012 480	2.23
Total	362 631 700	135 998 977	37.50

It is therefore proposed that **WATER SHEDDING** be introduced immediately. During this time consumptions will be monitored closely. If no significant change is observed then tighter water shedding will have to be imposed thereafter. The water shedding should be implemented gradually to help enforce compliance among consumers and also to help save the little water resources available.

WATER SHEDDING PROGRAMME

AREAS	SHEDDING DAYS & TIMES	
	DAYS OF THE WEEK	TIMES
NKULUMANE, EMGANWINI, NKETA, PUMULA, SIZINDA, TSHABALALA, BELLEVUE, NEWTON WEST, SOUTHWOLD, WEST SOMMERTON	MONDAYS & THURSDAYS	0730-1530
COWDRAY PARK, LUVEVE, MAGWEGWE, NJUBE, ENTUMBANE, EMAKHANDENI, BABOURFIELDS, MZILIKAZI, NGUBOYENJA, MPOPOMA, MAKOKOBA LOBENGULA, MABUTWENI, IMINYELA, PELANDABA, MATSHOBANE	WEDNESDAYS & SATURDAYS	0730-1530
ALL EASTERN SUBURBS	TUESDAYS & FRIDAYS	0730-1530
INDUSTRY & CBD	ALL DAYS	EXEMPTED
ALL AREAS	SUNDAYS	EXEMPTED

NB: *Although all attempts will be made to stick to this schedule, the schedule is subject to change in cases of emergency.*

Residents are encouraged to conserve water.

Date: 02 December 2010
